# EU DEFENCE INNOVATION SCHEME

## For European Defence Innovators

**€1.5 billion**

**FOR DEFENCE INNOVATION IN THE EU**

Enabled by the European Defence Fund (EDF), the EU Defence Innovation Scheme (EUDIS) provides targeted R&D calls and support measures to help European defence innovators develop and scale their solutions.

### WHY EUDIS

Innovation is crucial to strengthening Europe's defence capabilities and readiness, enhancing operational superiority, reducing strategic dependencies, and ensuring long-term competitiveness. The EU Defence Innovation Scheme (EUDIS) fosters a dynamic European defence innovation ecosystem, helping startups, scale-ups, and SMEs to develop cutting-edge defence technologies.

EUDIS offers multiple tracks of support, including R&D grants, business acceleration and coaching services, testing and validation, and access to equity, helping defence technology founders bring their solutions to the market and integrate into the European defence sector.

Whether you are a start-up, scale-up, SME, innovator, investor, large enterprise, end-user or defence expert, EUDIS offers tailored opportunities to support and shape the future of European defence innovation.
